He had been paying his respects | lor. to the pockets of people who have been attending the auction stores for several days past, and any one who may have had their pockets lightened, unawares, can safely conjecture what has become of their treasure. Mr. Johnson is a indies' man, for it sooms that he has given his at tention to them particularly, and it is very probable that he was led to this course from his partiality for the gentler sex. He brushed by several, happening to stumbio against each one, and coming up to a respectable looking woman, he thrust his left hand into her pocket, and withdraw a little package of money wrapped up in paper. The woman did not notice the movement, but the policemen had their eyes on Mr. Moran, President of the Eric Rail Road, Mr. Pickpocket that moment, and his doom was

In a moment he was in the iron grip of policeman Capron, and upon being scarched, the money which he took from the woman was found in his pucket, besides about two dozen finger rings of more or less value, and a number of other triukets. Upon these facts being disclosed before Justice Walworth, he was sent to juli in default of \$500 ball to await his trial at the coming term of the Circuit Court. This fellow is, beyond doubt, one of the professional pickprokets of the small kind. His clothes were all tranged for the business. His coat was made (iter the most approved pick pocket style. Gen. The \$15,87 of tax, imposed by Mr. Taylor, was therefore unjustiflable. For the truth of this statement, I refer Yours, respectfully,

We cannot resist quoting some extracts from this white-washing Report, to show the animus of HADLET & Co., towards the Tux-payers of Milwaukee, and the classical style and amiable temper, in which Alderman Hanter speaks of the gentlemen who composed

several are men of strong political prejudices, in whose becom fester, canker and ripen into re-venge, envy, malice, personal batted, and politivenge, envy, mance, personal nation, and politi-cal disappointment. Auxious for an opportuni-ty to vent their hatred and spison upon those whom they regard as politically in their way, they self-constituted themselves into a Commit-tee, and taking advantage of the popular excite-ment for the moment in relation to the burdon-some tax of the present year, they set themselves. some tax of the present year, they got themselves appointed a Committee at the first meeting in December at Albany Hall.

The real object of the members of that selfstyled tax payors' Committee, in their attempt to build themselves up, by consuming and condemning this Common Council and some of the city officers, must be obvious to all. They want the pieces occupied by the present Council and city officers for thumselves and friends, and they sook to gain public favor and secure places by traduc ing and abusing the motives and acts of others. Their next effort will be to institute a property qualification to entitle a man to vote at our char-

This is impudent pettitogging. The salarles were raised last summer, some months after the officers had entered apon their duties, and the Council had just as good right (and much more reason) to reduce, as to raise them. When HADLET & Co. put up the salaries to their present extravagant notch, the Sentinel called attention to the matter, and exposed the wrong done to the Tax-payors and the violation in. volved of the City Charter. The Tax-Enters, however, had things their own way, and putjthe resolution through, no doubt expecting that the People, good, easy souls, would forget all about it before election came round again. But now, being disappointed in this agreeable expectation, and finding the People, for once, disposed to hold them to a strict account for their wrong

Progress of the La Crosse Railroad. The editor of the Wisconsin Mirror made an excursion, last week, over the line of the La Crosso Rail Road, to the dividing ridge, between the La Crosse and Lemonweit Valleys, and in and Gratiot, in the coad is now open and running to Naw Lieuon. The next station is Today. 20 miles forther to act of \$85. TOMAH, 20 miles further, located at the junction of the La Crosse and St. Uroix branches of the road The track beyond Lisbon and Tomah is all laid and will be open for travel, we presume, bute to the contractors, Mesers, OHAMBERLAIN & WELLS, for the energy with which they have pushed the work ahead during the past winter, and the therough manner in which they have done the job. Four miles west of Tomah is the dividing ridge between the valleys of the Lemonwoir and La Crosse rivers; and a tunnel is to be made through this ridge, to connect the two valleys. The tennel will be a quarter of a mile long, 15 feet wide and 18 feet high. The rock which it will pierce is a sandstone. The contract for making the tunnel has been let to

monced and the contractors intend to seach La Orosse, with the iron rail by next October. If they do this, they will accomplish a feat in Rail FOR STREET COMMISSIONER. -- Among the many

Interesting Letter from one of the Volunteer isattallons. From the St. Louis Lender, March 28.

HEAD QUARTERS VOLUNTEER BATTALION, CAMP SCOTT, U. T., Jan. 81, 1858. Since my last, nothing of any importance has occurred. We are still encamped in our old spot, and have bad neither arrivals nor departures at any moment. The command, and the army in general continue surprisingly healthy, and the only complaints are of the shortness of the rathey compained are or tab shortness of the rations and the duliness of campille. An arrival of a quantity of sait, is the principal feature in the month's cents, and although only sufficient to give each man a scanty allowance, still it was most welcome. It is now all gone, and when we shall see any more is very problematical.

The mail from the States, or a portion of it rather, got into camp on the latter of Jee. The mail from the States, or a portion of it rather, got into camp on the 1st or 2d of Jan, on pack mules, having been obliged to abandon a lot of it at Platte. Bridge, as News to October 1st, came by it. It necess as if there was something wrong about the whole arrangements, for a boy and a man belonging to the Interior Department Expedition left this pines on the 2sth December, with a few feether, half-dead mules, went back across the Rocky Mountains to the last crossing of the Sweet Water, leaded a wagon which had been abandoned there with the saddles, sabres, So., belonging to the dragoons, whose horses had died on the road, to the tune of mostly 2,209 pounds, unassisted, and main

In the commencement of the new year we had a very severe gale of wind and heavy falls of snow, which lasted without intermission for four duys, blowing down tente in all directions, and playing old gooseberry with everything. After the storm, the weather cleared up, and we had a glorious apiell of the weather; though the anow sadly interiered with our light Intantry dill.

On the 8th inst. we had quite a little excitement in the shape of surewheeted. Moreover, and the shape of surewheeted. addy interfered with our light Intantry dill.

On the 8th inst. we had quite a little excitement, in the shape of an expected. Mormon attack, Colonel Bidesent me out it in charge lot a small patrol early in the evening, to proceed up lluck fork and search the secrub and blods in the neighborhood for a Mormon camp, which was reported to have been search and blods in the neighborhood for a Mormon camp, which was reported to have been search and blods in the neighborhood for a Mormon camp, which was reported to have been search asses of us. It was vory dark, no moon, and the pleasure of wading over sage brush and rocks, on a Junuary night amongst the Utah mountains, with a couple of lest of snow on the ground, mustable tested to be appreciated. I went about 14 miles of spateroils, and returned to camp; where I learnt that two other larger parties under Licutenant Deshibler, 10th Infantry, and Lieutenant Bennet, of the Volunteer, Battalion, had started Immediately I had left the camp; the former returned on the following day, siter a fallguing night march, but the latter was our five days, the men carrying rations for that time. It was pretty hard lieks walking over these plains in deep snow, and camping out at night with only a single blanket for bedding and tent, Many of the men were more or less severely frostbitten. Talet seconmoissance was also unable to the linear were more or less severely frostbitten. more or less severely frostbitten. Tacic renoissance was also unable to discover the least

trace of any enemy.
While some of the army were thus roughing it out, another portion of it, the non-commissioned officered the 10th, got up a ball and simples in their camp, and many of our sergeants, corporals, and men of the volunteers attended.—
How it went off I don't know, as, shough I blave a pretty fair appreciation of a really genuine absurdity, still the idea of a ball in this confounded review, without the idea of a ball in this confounded review.

a pretty fair appreciation of a really genuine absurdity, still the idea of a ball in this confounded region, without the faintist attempt at anything almost in the teminine line, was a least to rich. As fara s I remember of what I heard, it ended in a perfectly free fight, involving the loss of the supper and the destruction of the grub, &c., being the only return made to a large majority for the \$6 which they paid for their tickets.

On the day following a geutleman came into the camp at Head-quarters, in the most free and easy kind of way, perfectly affable, and communicative, and all that sort of thing, stuling that he was a persecuted individual who had escaped from Sait Inake City, and offering for sale butter, eggs, and milk, luxuries unheard of, and assuming the air and manner, as far as possible, of a friend to the States and the army, and a joly good follow into the bargain. His career in this part, for which Nature never intended him, was cut short as summarily as there is every reason to hope his existence will soon be, though not by the intervention of a rope, but of Major Porter, Assistant Adjutant Goeral, and a file of men, with revolvers ominously cocked. The interesting but misguided provider of the aforesaid dainties, proved to be a notorious Mormon, called Cherokee Jim, alias Thompson, a regular commissioned "destroying angel," in other words, a blood-thirsty murderous fanatic, who like the Thuge in India, offered human sacrifices to the object of his adoration. He was immediately accommodated with bracelets and anklets to match, and put into the guard house of the 5th Regiment, in which appropriate locality he to match, and put into the guard house of the 5th Regiment, in which appropriate locality he still flourishes, and, it is to be anticipated, will found to the still flourishes. fourish notil he can be tried. Strong suspicion has arisen that the Mormons have spies, and good ones too, in our midst. Cherokee Jim asserts that they know everything that passes, and I, for one believe it.
